

Hi,

My name is \_\_\_\_\_. I'm calling to ask you, \_\_legislator name\_\_, to support HB 2262 and SB 6015 towards amending RCW 4.20.020 (Wrongful death- Beneficiaries of Action)- Concerning nonresident beneficiaries of wrongful death actions. The Wrongful Death Law is outdated and discriminates against immigrants. It does not protect all people residing in Washington. We need language in-line with current existing legislation to allow people the right to seek benefits of their deceased loved ones, regardless of residency status and age. The families who suffered from the 2015 Rides the Duck Crash deserve justice. Thank you.
